## The Hughes News

As your strategic partner in food processing, Hughes Equipment also is your partner for genuine replacement parts, including husker rolls, which are on hand. With the fiscal year coming to an end for many companies, now is the time to replenish all the Perfect Fit Parts by Hughes you'll need into the coming year.

— **Glenn Lewis, Parts & Service Sales Manager**  
(call me at 608-576-6250 or 920-623-2000)

## Parts Designed to Keep Your Operation Running Smoothly

With *Perfect Fit Parts By Hughes* on hand, you'll reduce your down time and ensure efficiency in your food processing operations.

We design and machine our parts to the exact specifications of your Hughes Equipment. That means no worry about proper fit or smooth function.

### No Long Wait Times for Parts

Genuine Hughes replacement parts are readily available with reasonable lead times - and at competitive pricing. **We have husker rolls on hand and ready to ship.** You benefit from reduced down time and by maintaining your budget.

### Precision Parts for Other Brands

We offer a number of wear parts for other brands, as well. Our expert machinists and metal fabricators can craft replacement parts for select brands of food processing equipment. Contact us about your needs.

Contact Glenn Lewis, our parts and service sales manager, to ensure you have genuine Hughes parts on hand. Call Glenn direct at 608-576-6250, or through our office at 920-623-2000.

Visit our website to learn more about Hughes.

## The Hughes News

## Plant Breeding, Market Trends Impacting Design of Food Processing Equipment

Food processing equipment manufacturers are increasingly under pressure to alter designs of machinery to accommodate new varieties of fruits and vegetables developed through plant breeding. At the same time, increased consumer demand for fresh market, organic and ethnic produce is creating a need for more flexible and smaller versions of standard food processing equipment, and for

equipment that handles crops more gently and that, at times, involves more field trash.

Hughes Equipment Company has been following the trends and accomplishments of plant breeding, and has released a white paper on the factors surrounding the issue and the implications for food processing manufacturers.

## Is Your Food Processing Plant Running at Peak Efficiency?

*Our PACIR™ Audit Will Map a Path to Get There*

Looking for ways to get your processing facility to peak performance? Look to the expertise of Hughes Equipment Company, which now offers **PACIR™ – Process Analysis and Continuous Improvement Review.**

### Completely Confidential

PACIR™ is a new, confidential operational review process that will give you detailed, action-specific insights on ways to gain operational efficiencies and get your facility to peak performance.

Based on more than 50 years of working with food processing facilities around the world, the Hughes PACIR™ team has unmatched expertise in operational best practices. You'll benefit from that expertise when you engage PACIR™ at your processing facility.

### Detailed Action Report

All PACIR™ engagements are tailored to a specific facility, so you'll get a detailed action report on steps that will bring new efficiencies and competitiveness to your operation.

### What PACIR Covers

- Unloading
- Cleaning
- Conveying
- Processing
- Surge Capacity

### What PACIR Involves

- Determine Scope of Operational Analysis
- Sign Confidentiality Agreement
- Conduct 4- to 6-Hour On-Site Audit
- Create Initial Report within 4 Business Days
- Engage Follow-Up Meeting to Discuss Details
